Souradip Biswas

AI and ML Developer | Full Stack Development

souradip073@gmail.com | +91 8787822581

sobi.codes | github.com/sobiswriter | linkedin.com/in/sobiswriter

AI and ML developer and LaunchSILO Labs agency owner. Builds full stack applications, AI workflows and mobile software, with hands-on client delivery and award-winning technical competition experience.

SELECTED ENGINEERING PROJECTS

LaunchSILO Labs | Agency Owner and Developer

launchsilo.in | RLBiz source

• Built and launched an agency platform for e-commerce, SaaS, portfolio, video production and mobile development services.

• Implemented a multi-step scope builder capturing service requirements, budgets, timelines and deliverables, with AI-assisted estimates and inquiry qualification.

• Built an administrative CMS and inquiry pipeline with status tracking, client notes, invoice creation, PDF export and WhatsApp handoffs.

Bhudrishty | Team Vortiq | SIH 2026

Project announcement

• Independently developed the entire mobile application; contributed to the ML component and website for a landslide early-warning system.

• Worked within a multi-source risk-assessment architecture combining sensor readings, rainfall, terrain and satellite data for localized warnings.

• Earned college nomination to present at SIH 2026 after competing among 900 teams.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, PowerShell; Java familiarity

Applications: React, Next.js, Tailwind CSS, Node.js, FastAPI, REST APIs

AI and ML: Gemini, Vertex AI, Genkit, TensorFlow/Keras, XGBoost, scikit-learn, pandas, NumPy

Cloud and Delivery: Google Cloud, Cloud Run, Firebase/Firestore, Supabase, Vercel, Docker

PROFESSIONAL EXPERIENCE

Freelance Application Developer

• Developed applications for two businesses: an inventory-management app for a general retail shop and an application for a medical shop.

• Retail app included stock valuation, sales analytics, receivables/payables, GST reports, data exports and invoice generation, with offline-first functionality.

RESEARCH AND RECOGNITION

Advitiya 2026, IIT Ropar: First and second place in two technical events. Results

College Tech Fest: Ideathon winner.

Patent Publication | Oct 2025: Hybrid Endomythosis Detection through AI & ML. Publication

Web-E-Thon 2025 | Mar 2025: First runner-up.

EDUCATION AND TRAINING

Lovely Professional University | Punjab, India

B.Tech in Computer Science and Engineering | Started Aug 2023

Training: AI, ML and Data Science, IIT Ropar (Sep 2025); IoT and AI/ML for agricultural spraying drones, SLIET (Aug 2025).
